

Community Care

Deciding how, when and where to place your loved one in a senior living community or residential care home can be overwhelming and one of the most important decisions you'll ever make.

We are here to make it easier for you—and there's no cost to you for this service. Based on your preferences, finances, and care needs, we will guide you in choosing a suitable independent living, assisted living, or memory care community.

We continually monitor competency and skill levels of communities we work with and will work hard to find a care setting that you and your family will love.

Connections in Home Care

was created on the premise of our mission: to connect older adults to reliable, proficient care professionals that help accomplish successful daily living and treat clients like family.

Choosing your Care Plan

Together we create and follow a **Care Plan** to ensure safe and successful daily living activities. A **Care Plan** can be any combination of the types of care we provide:

A New Model for Better Care

- Partnering with the **Honor Care Network** (Honor) allows us to provide the highest level of personalized care with more layers of support and unique technology that improves reliability and communication.
- Together, we work closely to ensure that our clients have the appropriate level of care—and are 100% satisfied with our service.
- As a local agency, we've built our reputation by providing the highest level of in-home care to older adults in our community. That hasn't changed. And neither will our relationships with the people we care about—and care for.
- Our app brings much needed transparency to home care clients—authorized loved ones can view the care schedule, the caregiver's profile, and read care notes provided by caregivers after every shift.
